

Release Notes PostgreSQL Provider 5.2.2 (English)

Summary

This version includes bug fixes and targeted functional improvements for the FDO Provider used for map display and the Domain Model Provider.

Supported Software

- Autodesk AutoCAD Map 3D
 - Autodesk AutoCAD Map 3D 2024.0.2 with base Autodesk AutoCAD 2024.1.8
 - Autodesk AutoCAD Map 3D 2025.0.2 with base Autodesk AutoCAD 2025.1.3
 - Autodesk AutoCAD Map 3D 2026.0.3 with base Autodesk AutoCAD 2026.1.1
- TKI NET 15.1.0 and newer
- TKI Licensing 14.0 (*only required for a manual installation on the network license server*)
- PostgreSQL 14 and newer
- PostGIS 3.1 and newer

The Autodesk AutoCAD and Map 3D versions listed above are the versions for which the PostgreSQL Provider was developed. Newer versions can usually also be used. However, in the past, individual updates have been incompatible with the PostgreSQL Provider.

Release PostgreSQL Provider 5.2.2 in Detail

General

FDO Provider (Map Display)

- After database queries, memory is now released again, so memory usage no longer increases as significantly when several large queries are executed one after another.

[PGP-770](#)

Domain Model Provider

- In Infrastructure Administrator, the list of users connected to the domain model no longer shows Infrastructure Administrator's "own" connection.
